

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

LAMPLOUGH'S EFFERVESCING PYRETIC SALINE

HAVE IT IN YOUR HOUSES.

It is most invigorating, vitalising, and refreshing. Gives instant relief in Headaches, Sea or Bilious Sickness, and quickly cures the worst form of Eruptive or skin Complaints. The various diseases arising from Climatic causes, Constipation, the Liver or Blood Impurities, Inoculation, and the result of breathing air infected with Fever, Measles, or SMALL POX, are frequently prevented, and these diseases cured by its use.

The numerous statements and letters relating to its marvellous effect as a positive cure in TYPHUS, SCARLET FEVER, SMALL POX and other BLOOD POISONS, are most remarkable, and are painfully suggestive of great neglect, whenever the PYRETIC SALINE is not employed in these diseases.

"It furnishes the Blood with its lost Saline constituents."—DR. MORGAN.

SEA VOYAGES.—It is a very valuable accompaniment, and should on no account be omitted. It instantly allays the sickness.

WORTHLESS IMITATIONS are now being offered to the public, the only merit of which is a label and wrapper, with a transposition of the sentences and words of mine, a colourable imitation—in FACT, a FRAUD on myself and the public. For the protection of the public against Fraudulent Imitations, I have applied for, and again obtained a perpetual injunction, with costs, against several Chemists.

Sold by all Chemists and the Maker, in Patent glass-stoppered Bottles at 2s. 6d., 4s. 6d., 11s., and 21s. each.

LAMPLOUGH'S CONCENTRATED LIME JUICE SYRUP,
A perfect luxury; forms with the addition of Pyretic Saline, a most delicious and invigorating beverage. In Patent glass-stoppered Bottles, at 2s. and 4s. 6d. each.

H. LAMPLOUGH, 113, HOLBORN HILL, LONDON, E.C.

Their use in the restoration and maintenance of good health is remarkable, "very remarkable indeed."

PREFACE.

THE facilities now offered in the way of cheap travelling place a visit to London within the reach of all, and the aim of the publishers of this work has been that it shall be a Guide suitable for visitors having but limited time at command; and, judging from the increasing circulation of the previous editions, we are convinced that it has been well received by the travelling public. A comprehensive list is given of every important institution, and the way to visit the same is shown in many cases; and inasmuch as we give the full address in every case, it will be easy, on reference to the maps, to trace the direct way from one point to another.

We have also added a copious Index, which will be found on pages 97 to 100.

The District and Metropolitan Railways are the best means of conveyance to many parts of the City and Suburbs, on account of their connection with the Midland and other Railways in the north of London; also with the Great Western at Paddington, the Great Eastern and North London at Liverpool Street; and the London, Brighton, and South-Coast, and London, Chatham, and Dover, at Victoria Station. The trains of the companies are worked with the greatest regularity and safety.

The Omnibuses of the London General Omnibus Company will be found to ply at frequent intervals to most parts of the Metropolis and Suburbs. The outside of an omnibus affords an excellent opportunity for viewing many of the buildings, monuments, and other sights of London.

Tramcars run frequently through most of the principal thoroughfares leading to Brixton, Clapham, Peckham, Deptford, Greenwich, Stratford, Leytonstone, Clapton, Holloway, Hampstead, Highgate, Highbury, Stoke Newington, Finsbury Park, Kingsland, &c.

Gt

The Steamboats on the River Thames run frequently from London Bridge to Greenwich, Woolwich, Westminster, Lambeth, Battersea, Chelsea, Putney, Kew, &c. This will be found a very agreeable way of travelling in the summer time. During excursion season, boats also run to Gravesend, Southend, Sheerness, Richmond, &c.

Visitors in a great hurry, or having luggage, should engage Cabs, and for this purpose we give a list of fares from the Railway Stations to the principal Streets, Theatres, Public Institutions, Parks, Churches, &c.

In arranging the list of Churches and Chapels, we have furnished the localities and buildings in which the most popular and noted ministers preach, and the hours of service.

In the list of Places of Amusement, we give the addresses and a few particulars of most of the leading attractions; and in the case of Short Excursions in the Suburbs we include the principal points of easy access from the Metropolis, at the same time pointing out many historical, architectural, and archaeological features.

We also give the addresses of a few comfortable Hotels, Boarding Houses, Dining Rooms, &c., in the neighbourhood of the Railway Stations, and in other parts of the Metropolis.

In a work of this description, it is a difficult matter to ensure accuracy. Alterations are taking place every day; and although every precaution may be taken up to the time of going to press, yet it frequently happens that something occurs requiring alteration even before the work gets into the hands of the public. The Compiler will be glad to receive particulars of any inaccuracies that may appear, and the same should be addressed to

DR. J. COLLIS BROWNE'S CHLORODYNE

THE ORIGINAL AND ONLY GENUINE.

This wonderful remedy was discovered by Dr. J. COLLIS BROWNE, and the word **CHLORODYNE** coined by him expressly to designate it. There never has been a remedy so vastly beneficial to suffering humanity, and it is a subject of deep concern to the public that they should not be imposed upon by having imitations pressed upon them on account of cheapness, and as being the same thing. Dr. J. COLLIS BROWNE'S **CHLORODYNE** is a totally distinct thing from the spurious compounds called Chlorodyne, the use of which only ends in disappointment and failure.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE

is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

effectually checks and arrests those too often fatal diseases known as Diphtheria, Fever, Croup, and Ague.

acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis.

The Right Hon. EARL RUSSELL has graciously favoured J. T. DAVENPORT with the following—

"Earl Russell communicated to the College of Physicians that he received a despatch from Her Majesty's Consul at Manilla, to the effect that Cholera had been raging fearfully and that the ONLY remedy of any service was **CHLORODYNE**."—See *Lancet*, December 1st, 1864.

From Dr. B. J. Boulton and Co., Horncastle.

We have made pretty extensive use of Chlorodyne in our practice lately, and look upon it as an excellent direct Sedative and Anti-spasmodic. It seems to allay pain and irritation in whatever organ, and from whatever cause. It induces a feeling of comfort and quietude not obtainable by any other remedy, and it seems to possess this great advantage over all other Sedatives, that it leaves no unpleasant after effects.

CAUTION.—The extraordinary medical reports on the efficacy of Chlorodyne render it of vital importance that the public should obtain the genuine, which bears the words "Dr. J. Collis Browne's Chlorodyne."

Vice-Chancellor Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of **CHLORODYNE**; that the whole story of the defendant, Freeman, was deliberately untrue.

Sold in Bottles at 1s. 1½d., 2s. 9d., and 4s. 6d., by all Chemists.
